

6. FIELD ENGINEERING DIVISION LOGNOTE - 14 May 1987

CH

SMITH - Telephone Call

I received a telephone call at 0825 this morning from a reporter, Robert Kurck, of the Manassas Journal. He asked for [] He was told that Harry was no longer with this office and asked him (reporter) if this was a business call or a personal call. He said that it was interesting that [] was no longer with this office and asked me if there was anyone there who could tell him what the Foreign Broadcast Information Service did and why they would be interested in the microwave tower on Bull Run Mountain. He mentioned that he was calling in regard to a zoning problem with Prince William County about the microwave tower located on Bull Run Mountain. I told him that I would get someone to return his call if he would leave his name and telephone number. I passed this information on to Chuck.

J

SKLAREWITZ - Telephone Call

Cathy passed the information in Lognote #6 to me. Since C/ESG was out of the office, I called the Director's office and reported the above info to [] I told Pat that the reporter probably got Harry's name from a letter written by Harry in May 1986 to Overseas Telecommunications, Inc. (OTI) concerning the microwave system from Independent Hill to Reston. OTI included in their paperwork to Prince William County a copy of this letter; therefore, that is probably how he got Harry's name and number.
